| WHY PHOTOBOOTHS NEED A SMARTER SOLUTION

“Where do I pay?” “Can I pay via GCash?”

Outdated, clunky software

→ Suppliers take too much time setting up and struggle with confusing interfaces.

Cash-only or manual payments

→ Guests get delayed, suppliers lose sales, and lines get longer.

Meet easy picsy

Easy Picsy is the **modern photobooth software** designed for both suppliers and guests.

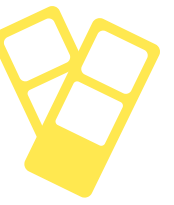

With the mission of **redefining the standards of photobooths around the world**, we're reimagining photobooths to be smarter, faster, and more fun — built for suppliers, loved by guests.

UI that's truly
user-friendly

contactless with
QR payments

smarter with
event analytics

The team behind easy picsy

Andrew

the tech guy who'll build
all the cool stuff!

Keith

the girliepop who'll do
marketing and client relations!

The easy picsy photobooth software for your events!

For Suppliers

**Set Up. Customize.
Track. Grow.**

- Event setup in minutes.
- Drag-and-drop custom branding.
- Real-time analytics.
- Works with existing cameras & printers.
- Flexible pricing plans that fit every business size.

For Guests

**Scan. Snap.
Print & Save. Repeat.**

- Quick & seamless: scan a QR and start snapping.
- Instant prints + digital downloads.
- Keeps memories beyond the event.
- Fun, modern, and hassle-free.

Edit Events on PC / Photobooth Screen		
Edit Events on Browser		
Easy drag and drop template editor		
Built-in cashless payment options  		
Approachable customer support		
Built for modern photobooths!		

How contactless works

| FOR PHOTOBOOTH OWNERS

1

Add Your Bank Details Once

Link your preferred bank or payout details once in your Easy Picky account.

2

Enable Cashless Payments

When creating an event, just toggle cashless on and set your per-use price.

3

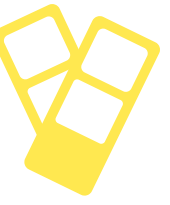

It's Event Day! (Do nothing else)

Guests scan, pay, and snap — payments flow automatically to your dashboard.

4

Collect Your Earnings Anytime

Withdraw funds whenever you're ready, straight to your bank.

How contactless works

| FOR PHOTOBOOTH GUESTS

1

Guests Scan the Easy Picsy QR

Each booth displays a unique QR code for payments. Guests open their preferred e-wallet or banking app, scan, and confirm payment instantly.

2

Payment Confirmation

Easy Picsy verifies the payment in real time. The booth is unlocked and ready for the guest to take photos. No manual handling, no delays.

3

Guests Snap, Print, & Download

Guests enjoy the booth experience. Photos print instantly with event branding. Guests can scan a second QR to download their photo digitally.

We're redefining photobooths but we can't do it alone.

Insights → Tell us what suppliers and guests really need so we can build the right features first.

Early adoption → Use Easy Picsy internally, give us feedback, and help refine features.

Local expertise & access → Help us roll out Easy Picsy at events, markets, and venues in your area.

Promotion & visibility → Share Easy Picsy with your network, event organizers, and brand partners.

In return, you get:

- Priority access to new features & updates
- Early partner perks & pricing benefits
- Be among the first photobooths to go contactless in the Philippines, and in the world.

Made for owners. Loved by guests.
